The Outlook for War.

VIENNA, December 29th.—The Vienna 'Press' is becoming convinced that Russia is determined upon war. Reports of increased Russian armament are continually coming to hand from various sources. The latest intelligence of this kind is to the effect that 300,000 troops have been ordered to Massinkoff, and that the occupants of 10,000 houses have received official notification that soldiers will soon be billetted in them.

The "Neue Frie Presse" plainly hints that the best thing Austria can do is to submit to Russian wishes in order to avoid a conflict.

The "Tagblatt" and other papers bitterly deplore the fact that Austria is compelled to abandon her Balkan programme, because she has been left in the lurch by Prince Bismarck, who has made peace with Russia.

Map of the Burned District.

Mr. M. D. Monsarrat has completed the printing of his map of the burned district in sheets, with an electric pen, and has produced first-class work. There are three sheets composing the map. The blocks being colored show at a glance the character of the buildings, whether of wood, iron, brick or stone. This map is invaluable for fire insurance purposes, and should be in the hands of every underwriter. It is the first work of the kind ever attempted in Honolulu, and Mr. Monsarrat deserves great credit for its successful accomplishment. Furthermore, this is the only map of the burned section of the city in existence, and is therefore all the more valuable. It is understood that a few complete copies in sheets remain for sale at Mr. Monsarrat's office, Merchant street.

The Fine Exhibit Made at the Fair by the Fredericksburg Brewing Co.

One of the most novel and unique exhibits of the Mechanics' Fair was that of the Fredericksburg Lager Brewing Co. This company was the pioneer in the manufacture of lager on the Coast. After overcoming many obstacles they have succeeded in producing an export
